

Insert SPF-PFS Coalition Name Here

SPF-PFS Strategic Plan Map: *Insert County Here*

Population of Focus:

Briefly describe the demographics of the population of focus for this strategic plan.

Statement of the Community's Readiness to Address the Problem of Practice:

Write 1-3 sentences here.

Theory of Community Change:
Insert "If-Then Proposition(s)" here.

This box will summarize your theory of change and your outcomes in words.

Community Logic Model – Theory of Change			Theory of Action			Measurable Outcomes		
Problem of Practice	Intervening Variable (There may be ONLY one intervening variable per map!)	Local Conditions (There may be MORE than one local condition listed!)	Evidence-Based Strategy(ies)	Demonstrating Capacity Inputs: Human / Material Resources	Time Line	Expected Outcomes for the Local Conditions (Shorter-term Outcomes)	Outcome for the Intervening Variable (Mid-term Outcome)	Problem of Practice Outcome (Longer-term Outcome)
Description of Problem of Practice (In Words)	Description of Intervening Variable (In Words) <i>The intervening variable must be directly related to the problem of practice.</i>	Description of Local Conditions (In Words) <i>The local conditions must be directly related to the intervening variable.</i>	<u>Strategy #1:</u> Briefly describe the evidence-informed strategy the coalition has selected to address the Local Conditions . There should be 1:1 correspondence between the Local Conditions and the strategy. <u>CSAP Type:</u> Insert the type of strategy selected (Education, Environmental, Alternative Activity, Community-based Process, Information Dissemination)	<u>Budget for Strategy #1:</u> SPF-PFS Budget: \$ Percentage of Total SPF-PFS Budget: XX% In-Kind: \$ Total Budget: \$	<u>Timeline for Strategy #1:</u> What are the key things that have to happen to get the strategy complete? What is your timeline? DATE: Activity DATE: Activity etc.	This column should have 1:1 correspondence with the local conditions . <u>Note:</u> Coalitions are not expected to measure the local conditions . However, it is important to show how the selected strategy will influence the local conditions which will then in turn impact the intervening variable .	This column should have 1:1 correspondence with the intervening variable + as measured by _____. <i>The intervening variable should directly impact the problem of practice.</i>	This column should focus on the outcome expected for the Problem of Practice : Reduce Underage Drinking Among Persons Aged 12-20 *or* Reduce Rx Drug Misuse/Abuse Among Persons Aged 12-25 + as measured by _____.
Data to Support the Problem of Practice : Please include the source of the data and the year(s) the data was collected.	Data to Support the Intervening Variable : Please include the source of the data and the year(s) the data was collected.	Data to Support the Local Conditions : <u>Note:</u> This will be qualitative data from your community's listening session. Please include the source of the data and the year(s) the data was collected.	<u>Strategy #2:</u> Briefly describe the evidence-informed strategy the coalition has selected to address the Local Conditions . There should be 1:1 correspondence between the Local Conditions and the strategy. <u>CSAP Type:</u> Insert the type of strategy selected (Education, Environmental, Alternative Activity, Community-based Process, Information Dissemination)	<u>Budget for Strategy #2:</u> SPF-PFS Budget: \$ Percentage of Total SPF-PFS Budget: XX% In-Kind: \$ Total Budget: \$	<u>Timeline for Strategy #2:</u> What are the key things that have to happen to get the strategy complete? What is your timeline? DATE: Activity DATE: Activity etc.			

Please be concise. You may not use more than one 11x17 page!
